

fofofu®
LOWLAND

⚠ WARNING

Read all instructions before using the product.
Assemble on a protective surface. The glass top is heavy — always use 2 people to lift and move it.

⚠ WARNING

The glass top should be removed from the packaging at the final stage of assembly. Removing it too early may cause product damage or personal injury.

⚠ WARNING

Step 2 must be carried out carefully and gently. Forcing the parts may cause the dowel to jam, deform the components, or damage the product.

⚠ WARNING

The dowel slots may be lightly oiled. If oil comes into contact with your hands, clean them. If it gets in your eyes, rinse thoroughly with plenty of water.

⚠ WARNING

Check regularly to ensure the legs are correctly spaced at 28" / ~72 cm. Failure to do so may cause product damage or personal injury.

⚠ WARNING

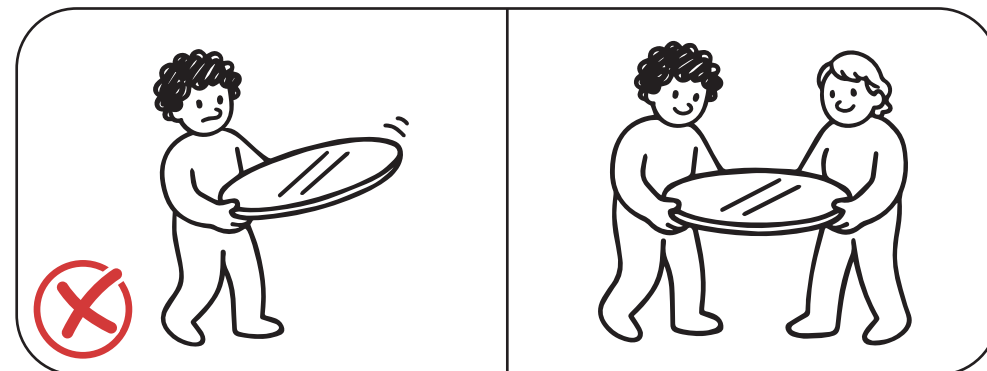

Always remove the glass top when moving or relocating the table. Failure to do so may cause product damage or personal injury.

⚠ WARNING

Sitting, standing or leaning on the table may cause product damage or personal injury.

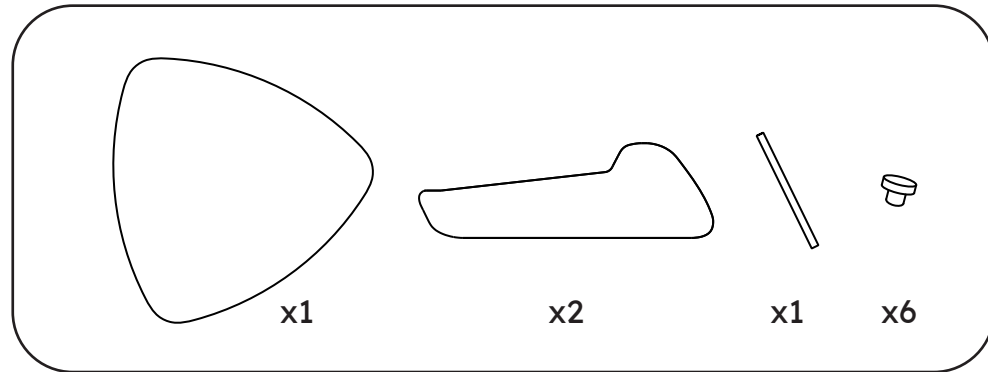

No tools needed. Just use your hands and this guide.

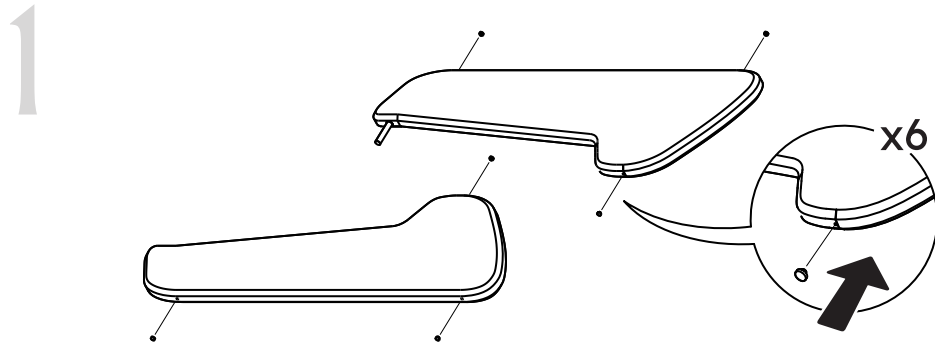

CAUTION! The glass top is heavy and fragile. Carrying it alone may cause injury or damage to the glass.

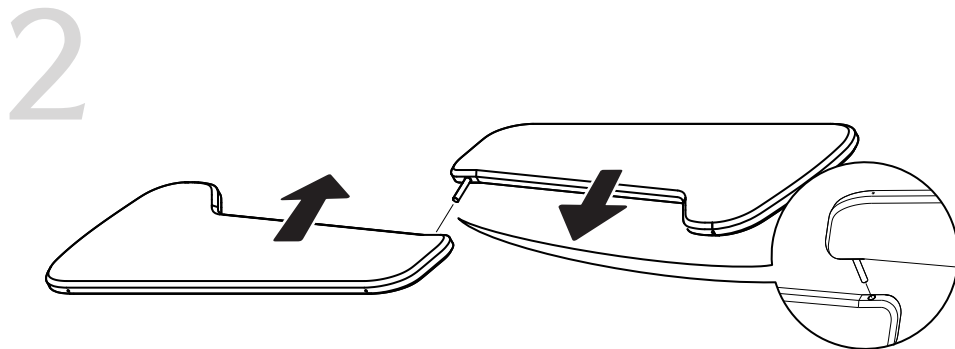

It is recommended to assemble on a soft surface, like a carpet. This helps prevent damage to the parts.

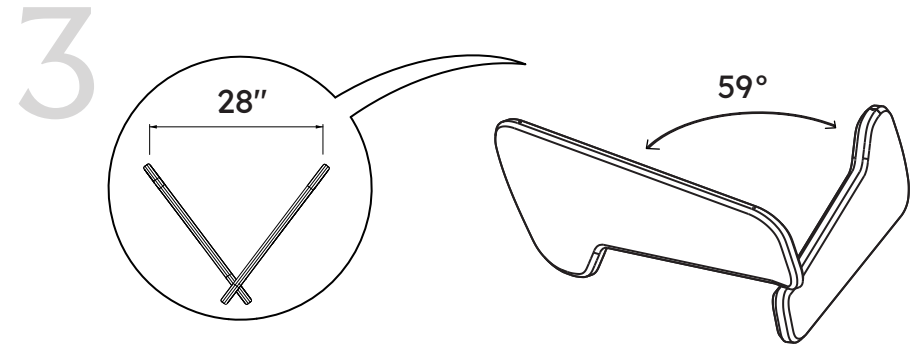

Note: Some parts may come pre-assembled in the package to make assembly easier.

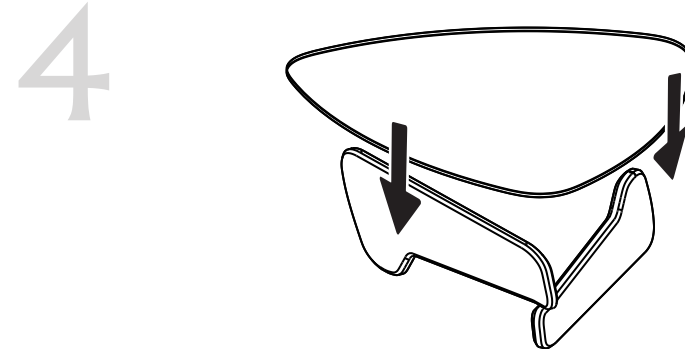

Place the silicone bumpers into the slots on the legs as shown in the illustration.

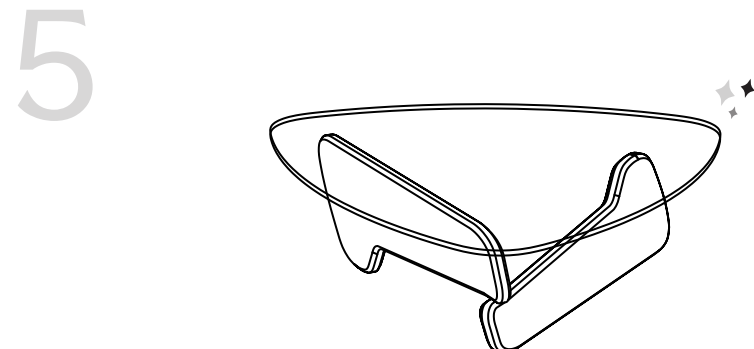

Gently insert the dowel rod into the slots on the legs to connect them together.
Being patient and careful at this stage helps prevent jamming or deformation.

The legs should be positioned at a 59° angle, with a spacing of 28" / ~72 cm between them.

Carefully place the glass top as shown in the illustration, centering it over the table legs.

That's it! Enjoy using it on beautiful days.

! WARNUNG

Lesen Sie alle Anweisungen, bevor Sie das Produkt verwenden.
Montieren Sie es auf einer schützenden Oberfläche. Die Glasplatte ist schwer – der Transport sollte immer von 2 Personen durchgeführt werden.

! WARNUNG

Die Glasplatte sollte erst im letzten Montageschritt aus der Verpackung genommen werden. Ein vorzeitiges Herausnehmen kann zu Produktschäden oder Verletzungen führen.

! WARNUNG

Schritt 2 sollte vorsichtig und behutsam durchgeführt werden. Gewaltames Vorgehen kann dazu führen, dass der Dübel klemmt, Teile sich verformen oder das Produkt beschädigt wird.

! WARNUNG

Die Dübelöffnungen können leicht geölt sein. Bei Hautkontakt Hände reinigen. Bei Augenkontakt gründlich mit viel Wasser ausspülen.

! WARNUNG

Stellen Sie regelmäßig sicher, dass die Beine im Abstand von 28" / ~72 cm korrekt positioniert sind. Andernfalls kann das Produkt beschädigt werden oder es können Verletzungen auftreten.

! WARNUNG

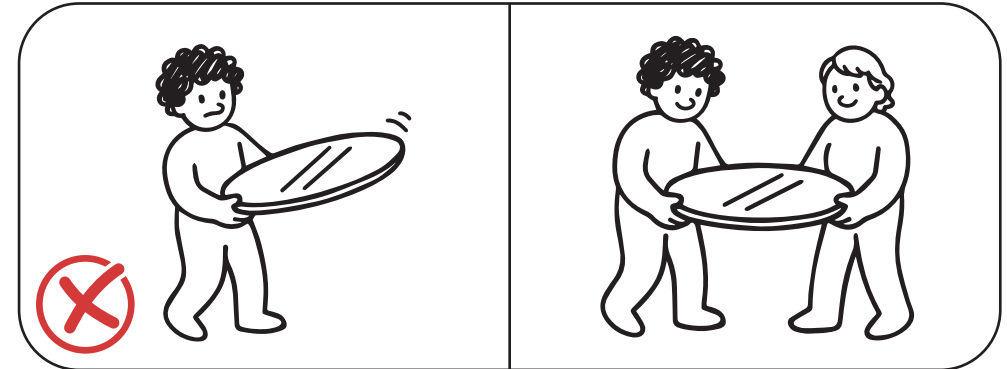

Entfernen Sie die Glasplatte unbedingt, wenn Sie den Tisch tragen oder umstellen. Andernfalls kann das Produkt beschädigt werden oder es können Verletzungen auftreten.

! WARNUNG

Das Sitzen, Stehen oder Anlehnen am Tisch kann zu Produktschäden oder Verletzungen führen.

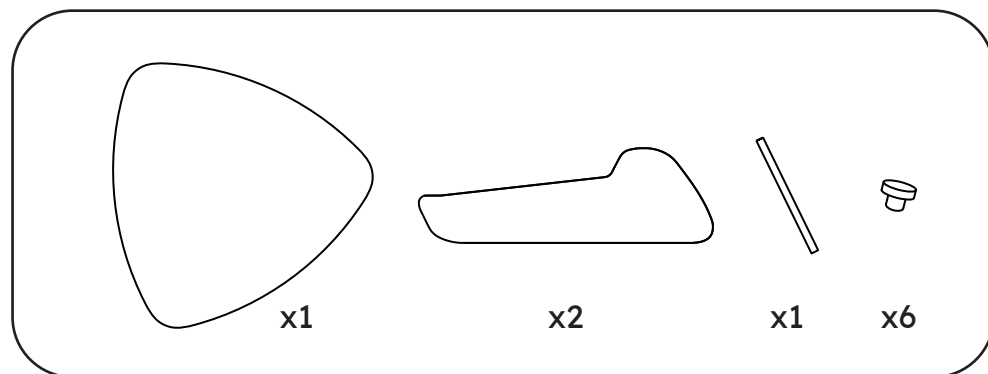

Kein Werkzeug erforderlich. Verwenden Sie nur Ihre Hände und diese Anleitung.

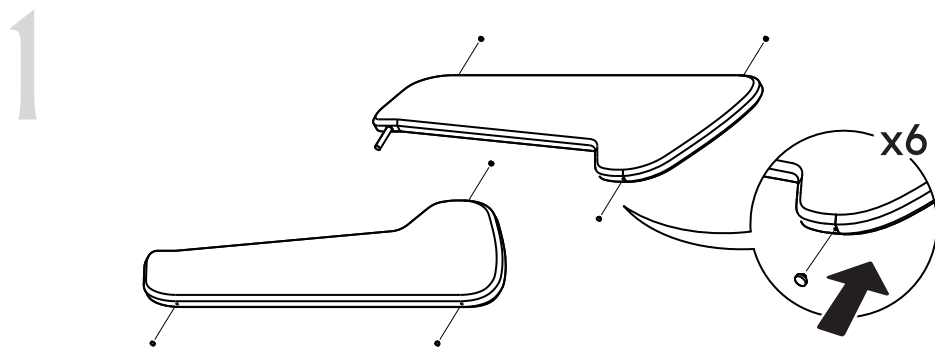

ACHTUNG! Die Glasplatte ist schwer und zerbrechlich. Das alleinige Tragen kann zu Verletzungen oder Glasschäden führen.

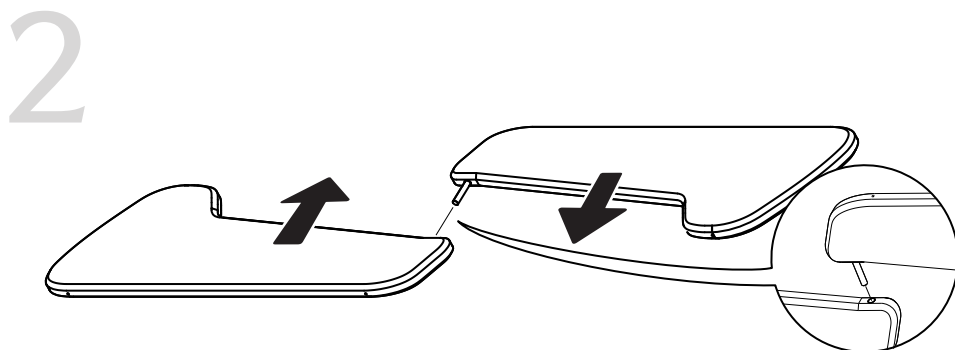

Es wird empfohlen, die Montage auf einer weichen Unterlage, z.B. einem Teppich, durchzuführen. Dies hilft, Schäden an den Teilen zu vermeiden.

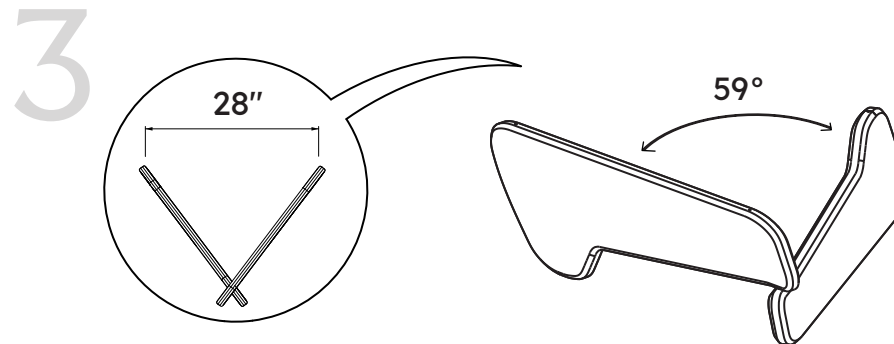

Hinweis: Einige Teile können zur Vereinfachung der Montage bereits vormontiert im Paket enthalten sein.

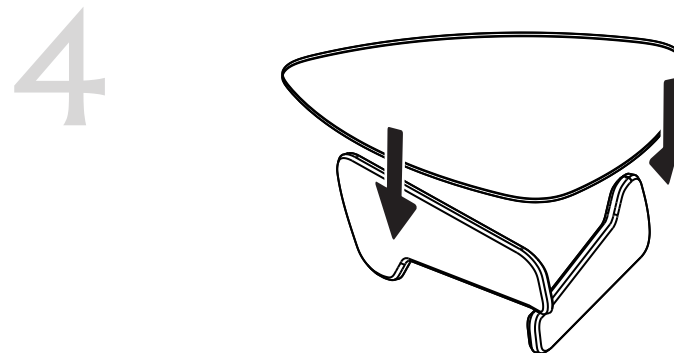

Setzen Sie die Silikonpuffer wie in der Abbildung gezeigt in die Aussparungen an den Beinen ein.

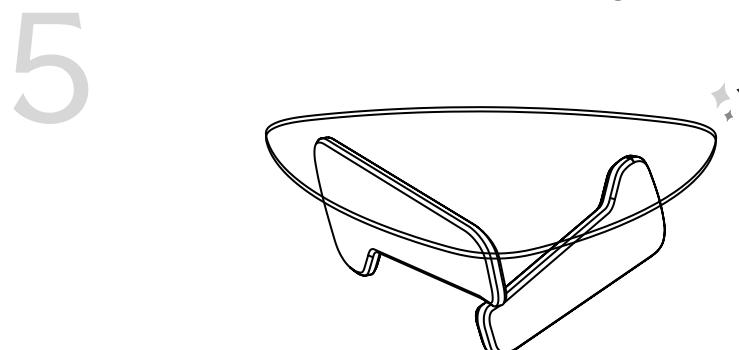

Setzen Sie die Dübelstange vorsichtig in die Aussparungen der Beine ein, um die Beine miteinander zu verbinden. Geduld und Sorgfalt in diesem Schritt helfen, ein Verklemmen oder Verformen zu vermeiden.

Die Beine sollten in einem Winkel von 59° aufgestellt werden, mit einem Abstand von 28" / ~72 cm zueinander.

Legen Sie die Glasplatte vorsichtig wie in der Abbildung gezeigt so auf, dass sie die Tischbeine mittig abdeckt.

Das war's! Viel Freude damit an schönen Tagen.

⚠ UYARI

Ürünü kullanmadan önce tüm talimatları okuyun. Kurulumu koruyucu bir yüzey üzerinde yapın. Cam üst yüzey ağırdır – taşıma işlemi mutlaka 2 kişi tarafından yapılmalıdır.

⚠ UYARI

Cam yüzey montajın en son aşamasında paketten çıkarılmalıdır. Erken çıkarılması ürünün zarar görmesine veya yaralanmalara yol açabilir.

⚠ UYARI

2. adım uygulanırken işlem dikkatli ve nazıkçe yapılmalıdır. Zorlama, dübelin sıkışmasına, parçalarda deformasyona veya ürünün zarar görmesine yol açabilir.

⚠ UYARI

Dübel yuvaları hafifçe yağlanmış olabilir. Yağ ile temas ederseniz ellerinizi temizleyin. Göze temas ederse bol suyla durulayın.

⚠ UYARI

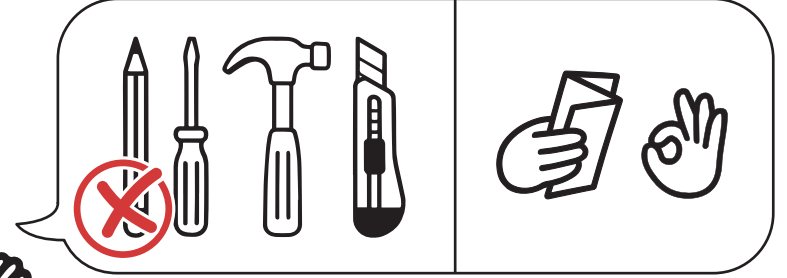

Ayakların aralığının 28" / ~72 cm olacak şekilde doğru konumlandığından düzenli olarak emin olun. Bu kontrolün yapılmaması, ürünün zarar görmesine veya yaralanmalara sebep olabilir.

⚠ UYARI

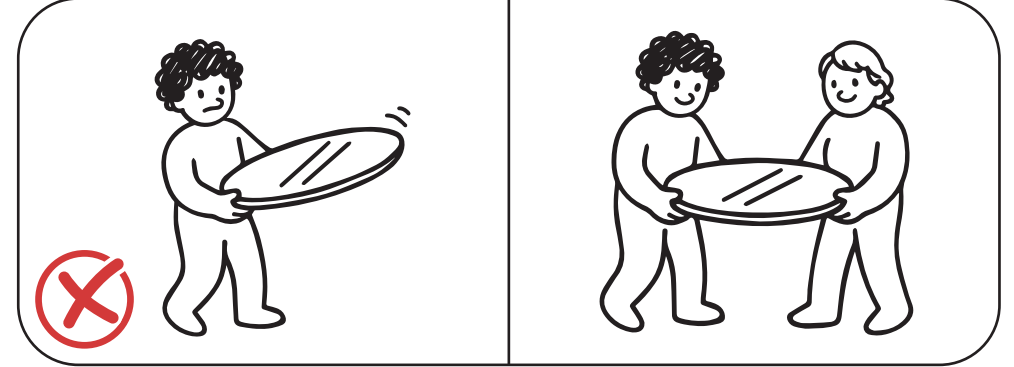

Sehpayı taşıırken veya yerini değiştirirken cam tabla mutlaka çıkarılmalıdır. Aksi takdirde ürün zarar görebilir veya yaralanmalara neden olabilir.

⚠ UYARI

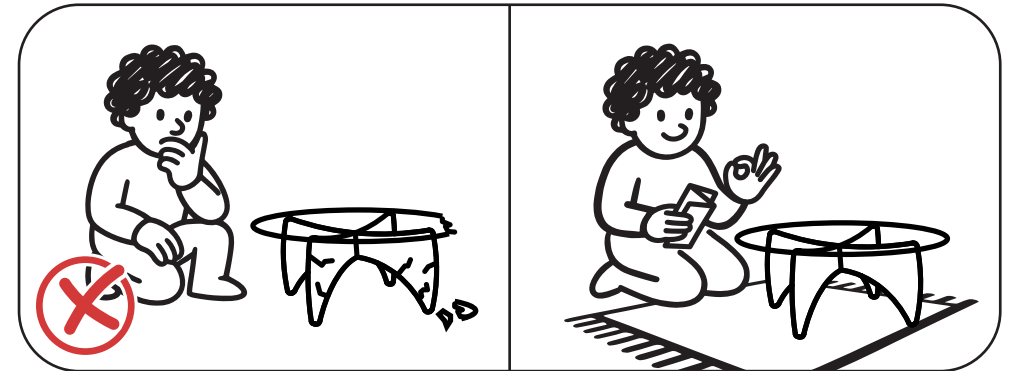

Sehpa üzerine oturmak, çıkmak veya yaslanmak ürünün zarar görmesine ya da yaralanmalara yol açabilir.

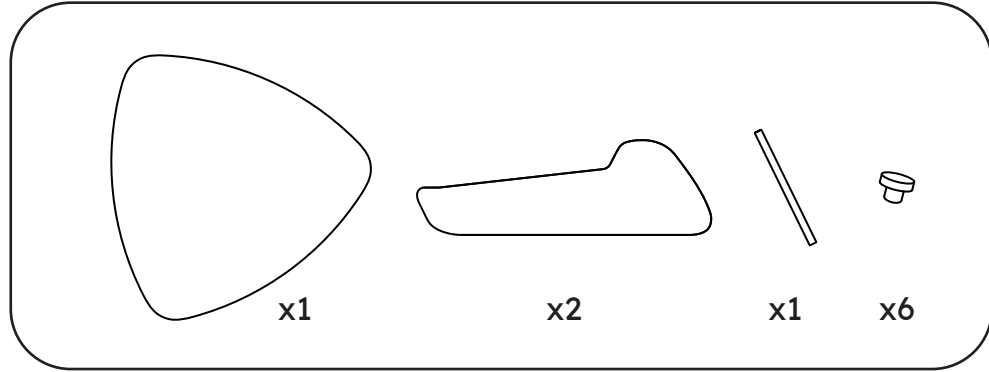

Alet gerekmez. Yalnızca ellerinizi ve bu broşürü kullanın.

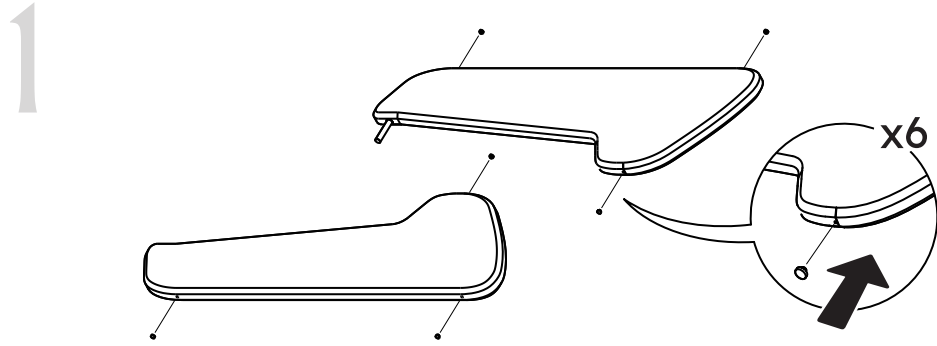

DİKKAT! Cam tabla ağır ve kırılındır. Tek başınıza taşımak yaralanmalara veya camda hasara yol açabilir.

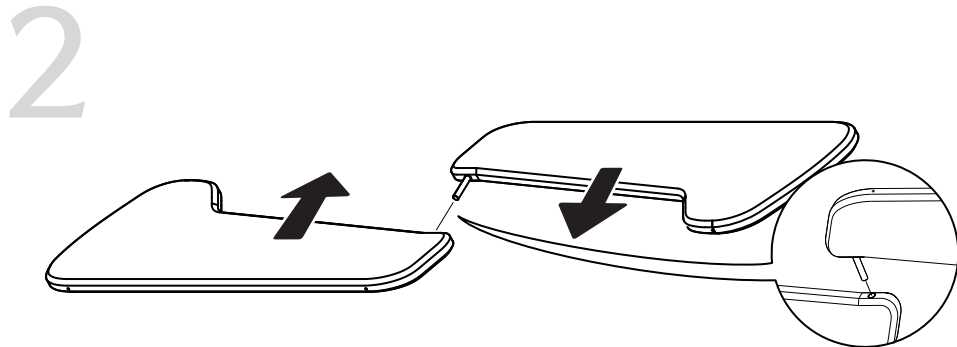

Kurulumu, halı gibi yumuşak bir yüzey üzerinde yapmanız önerilir. Bu, parçaların zarar görmesini önlemeye yardımcı olur.

Not: Bazı parçalar, montajı kolaylaştırmak amacıyla kutudan önceden takılı olarak çıkabilir.

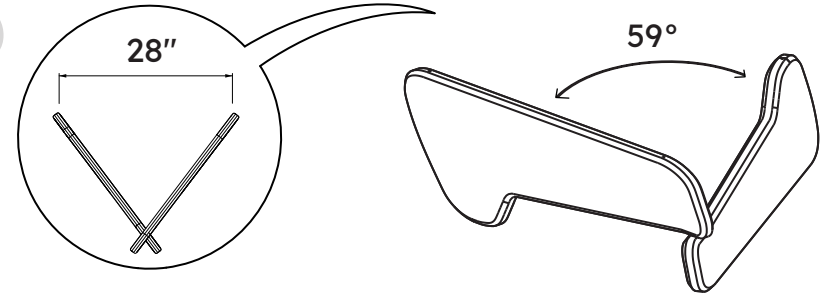

Silikon tampon parçalarını, görselde gösterildiği gibi bacaklardaki yuvalarına oturatarak yerleştirin.

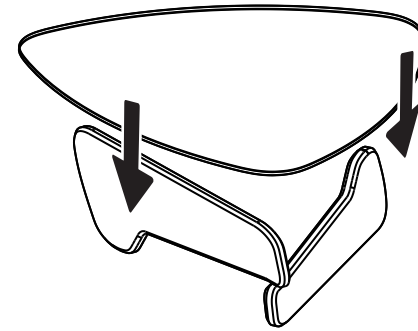

Dübel çubuğunu, bacaklardaki yuvalara nazıkçe yerleştirerek, ayakların birbirine bağlanmasını sağlayın. Bu aşamada sabırlı ve dikkatli olmak, olası sıkışma veya deformasyonların önüne geçmenizi sağlar.

3

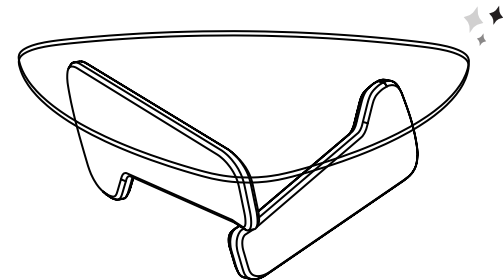

Bacaklar 59° açıyla konumlandırılmalı, aralarındaki mesafe 28" / ~72 cm olmalıdır.

4

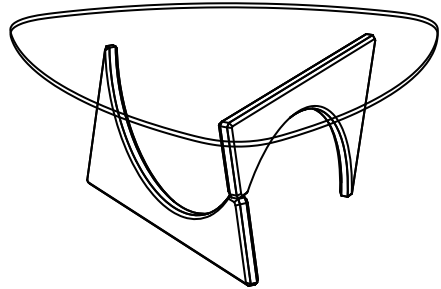

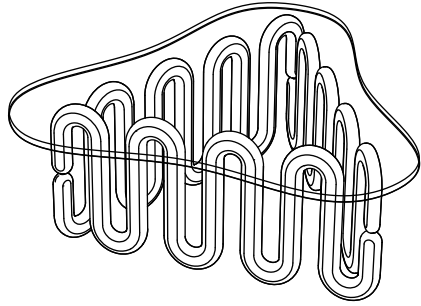

Cam tablayı, görselde gösterildiği gibi sehpa ayaklarını ortalayacak şekilde dikkatlice yerleştirin.

5

Hepsi bu kadar! Güzel günlerde keyifle kullanın.
